ROCKVILLE, MD, November 10, 2016 -- Therabron Therapeutics, Inc., a clinical-stage biotechnology company dedicated to advancing a new standard in respiratory care, today announced that its President and Chief Executive Officer, Dr. Thomas F. Miller, will give a corporate presentation at the Stifel 2016 Healthcare Conference. Additional information is as follows:

Date: Wednesday, November 16, 2016
Time: 9:30 am ET
Location: Lotte New York Palace Hotel

About Therabron Therapeutics, Inc.

At Therabron Therapeutics, we are advancing a platform of novel therapeutic proteins in an effort to change how a variety of neglected and under-treated respiratory and fibrotic conditions are managed. We are a privately held, clinical-stage biopharmaceutical company, developing a new class of drugs based on the naturally occurring secretoglobin family of proteins, which includes the CC10 protein — a molecule with both anti-inflammatory and immunomodulatory mechanisms. Therabron's product candidates have the potential to become first-in-class biologic therapeutics. For additional information, please visit www.therabron.com.
